Food at festivals

1 What can you see in the photo?

Reading

2 Read the text below about a festival in Spain.

Antonio lives in the city of Valencia in Spain. Every year he goes to La Tomatina Festival in Buñol, a town near Valencia. The festival is on the last Wednesday in August, when everyone comes into the main square to throw tomatoes at each other.

Before the fun begins, people cover the shop windows with plastic. Antonio always wears his oldest clothes so he doesn't get his best clothes dirty. He also always puts his camera in a plastic bag to keep it clean. In the morning trucks arrive in the main square, the Plaza del Pueblo, bringing more than 100,000 kilos of tomatoes. The fight begins at 11 o'clock and always lasts for two hours. At exactly 1 o'clock everyone stops. They never throw tomatoes after 1 o'clock. They then usually spend the rest of the day cleaning themselves and the town! In the evening, Antonio usually watches the fireworks, eats the local food and sometimes joins in the dancing.

Are these sentences right or wrong? Underline the part of the text with the answer in.

- 1 Antonio comes from Buñol.
- 2 The festival is at the beginning of August.
- 3 Antonio never wears his best clothes to the festival.
- 4 Everyone buys tomatoes from a local shop.

An amazing animal

- 1 Do this quiz with a partner before you read the article about polar bears.

Reading

- 2 Read the article to see if you were right. Don't worry about the spaces for now.

In danger

The polar bear's name in Latin is *Ursus maritimus*, meaning 'sea bear'. It got this name because it spends most of its time in the Arctic seas. It is also called by other names, for example, white bear or ice bear. When a polar bear gets out of the sea, it shakes water from its fur like a dog or it removes the water by rolling on the ice. It is very cold where

polar bears live. The temperature is very often as low as -55°C.

The polar bear is the largest meat-eating animal on land. The male weighs from 350 to 650 kg and he is two and a half to three metres long – almost as long as a car. A polar bear's skin is black but its fur has no colour – it looks white when the sun shines on the ice. It has big feet so it can stand easily on the ice.

The polar bear likes to live alone. It walks long distances, sometimes 30 km a day, (1) it needs to find food. The bear eats fish (2) it also enjoys seal meat. It goes swimming (3) lies in the sun when it isn't looking for food! It is a very good swimmer.

The female bear usually has two babies once every three years. The babies, or cubs, are born in November. Sometimes the cubs die in their first year (4) they have an accident (5) they don't get enough food to eat. If they live, they stay with their mother for nearly two years (6) then they must leave her to go and live alone on the ice.

There are only about 25,000 polar bears alive today. The area where you find them has many problems with pollution (7) there are also problems with thin ice. Polar bears need your help!

Reading

- 3 Now read the text to

check your answers.

If there is not enough information in the text to answer right or wrong, write 'doesn't say' beside the sentence.

THE HISTORY OF THE T-SHIRT

White cotton T-shirts were first worn by the US Navy in the Second World War and by 1948, every American soldier was wearing one too. But it was Hollywood films that made the T-shirt really popular: actors Marlon Brando and James Dean wore classic white T-shirts in *On the Waterfront* (1954) and *Rebel Without a Cause* (1955). After these films, every young man wanted to wear one.

T Women didn't begin to wear T-shirts until the end of the 1950s. In the 1959 French film *A bout de souffle* (*Breathless*), American actress Jean Seberg wore a T-shirt advertising an English language newspaper. This started a new fashion in T-shirts for women, but it wasn't until the

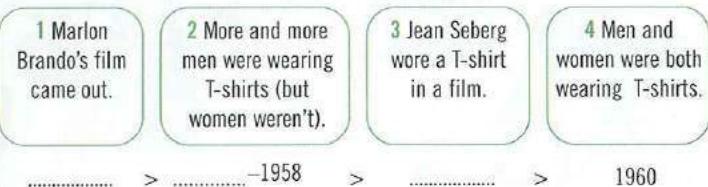

mid-1960s that companies like Budweiser and Coca-Cola started using T-shirts as 'walking advertisements'.

T Later, the T-shirt became a way of saying something important. For example, soon after the black American leader Angela Davis went to prison in 1970, people all around the world were wearing T-shirts with the message 'Free Angela'.

T In the 1970s, French fashion designer Yves Saint Laurent designed a famous blue T-shirt with his name in white letters. Giorgio Armani has also used T-shirts in his fashion shows. And in 2001, a limited number of white 'J'adore Dior' T-shirts sold quickly at well over £100 each!

The travel company Thomas Cook has 6,000 people waiting for a place on its *Lunar Tours*.

- 1 Say if these reasons will or won't make people want to holiday on the moon or in space.

the views of Earth – *I think the views of Earth will be so good that people will want to go into space to see them.*

the views of Earth	the weather
the journey	the activities/attractions

Reading

The World Tourism Organisation says that space will soon be a popular place to go on holiday – possibly by 2020. One Japanese company is getting ready. They are planning a space holiday centre. It will look like a bicycle wheel and have a hotel for 100 people and a theme park. It will travel round the Earth at a height of 300 km. The company hopes the centre will be ready in 2017. The company chairman says he thinks that flying to the centre will probably be quicker than flying from Hong Kong to Singapore. When they are on board the centre, tourists will take short trips to the moon or go for walks in space. But what about the cost? Well, the company believes that people will be happy to pay about \$100,000 for a trip but they think that as more people want to go, the trip will become much cheaper.

An American hotel group is also thinking of building a hotel, called the Lunar Hotel. This will be on the moon. Most of the hotel will be under the ground so it won't become too hot or too cold. The rooms will look just like they do on Earth with curtains, carpets, plants and they will have wall-to-wall television. The guests will eat normal food for lunch. The cooks will just push a button to mix dried food with water to become an instant meal! There will be little or no dirt and there won't be much water, so the hotel won't wash the towels and sheets – it will throw them away!

- 2 Read the article about holidays in space and then write questions for the answers 1–7.

- 1 A bicycle wheel.

What will the holiday centre look like?

- 2 100

- 3 300 km

- 4 2017

- 5 Go for walks in space.

- 6 \$100,000

- 7 Under the ground.

Grammar The future with *will*

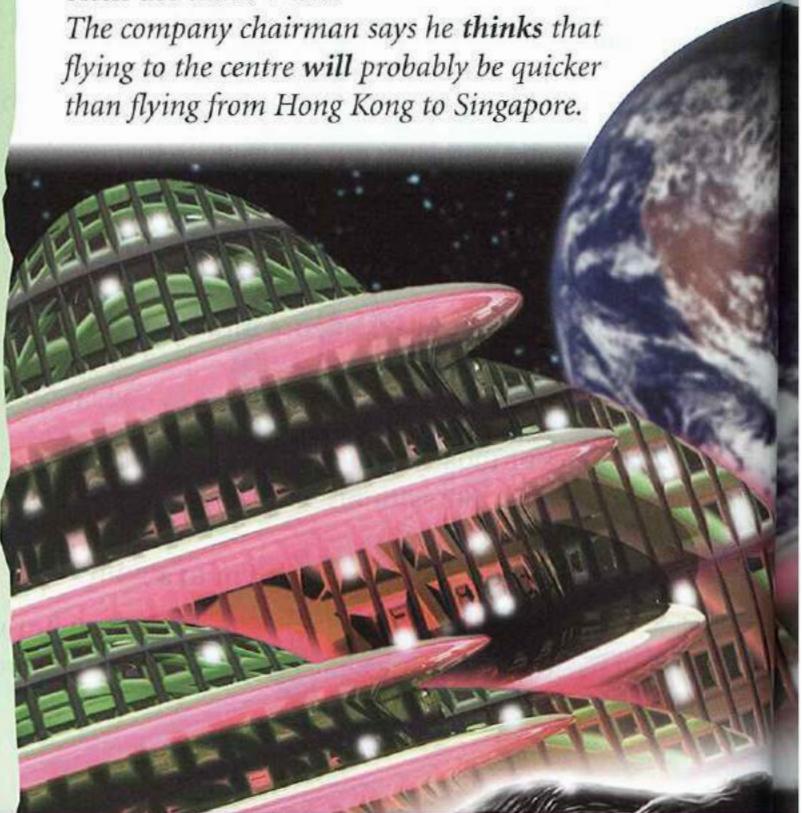

- We use *will / 'll + verb* or *will not / won't + verb* to talk about the future.

*Space will soon be a popular place to go on holiday.
The hotel won't wash the towels and sheets.*

- We often use these words with the future simple: *probably certainly definitely possibly*

- When we are predicting something we also often use *think + will*.

The company chairman says he thinks that flying to the centre will probably be quicker than flying from Hong Kong to Singapore.

- 3 What will happen in the future? Write some sentences about each topic below. Use *will* or *won't*. When you have finished, tell your partner what your ideas are.

EXAMPLE: travel

I think that travel by plane will probably become cheaper.

I think beach holidays will certainly be less popular.

- 1 travel
- 2 yourself
- 3 your best friend
- 4 your favourite football team
- 5 your favourite band
- 6 your school

Or we can say:

This sentence is **passive** and the Eiffel Tower is now the subject of the sentence. We use *by* to say who did the action.

This is an example of the **past simple passive**.

The passive is formed by using *to be* + the past participle of the verb.

Part 4

Questions 21–27

Read the article about a visit to Hearst Castle, a famous building in California.

Are the sentences 21–27 'Right' (A) or 'Wrong' (B)?

If there is not enough information to answer 'Right' (A) or 'Wrong' (B), choose 'Doesn't say' (C).

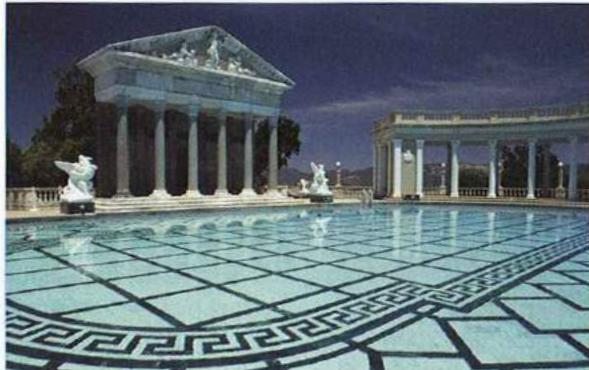

A visit to Hearst Castle

by Theresa Martin

Last year, I had a great trip to Hearst Castle at San Simeon in California. Hearst Castle was built by William Randolph Hearst between 1922 and 1939, at a cost of more than \$30 million – about \$277 million today.

I spent all day looking around, but it wasn't enough. There was so much to see. Hearst Castle is really four houses. The main house, 'Casa Grande', is much bigger than the other three, which were used for guests. Many of these were Hollywood film stars, and they often came to Hearst's parties.

At Hearst Castle, there are 56 bedrooms, 61 bathrooms and 19 sitting rooms. There are also beautiful gardens, a garage for 25 large cars and two swimming pools, one inside and a larger one outside. I loved the one outside, the 'Neptune Pool' – it was a pity we couldn't go swimming!

I found the tour very helpful. The guide told me that Hearst, at the age of ten, toured Europe with his mother, looking at paintings and castles. He never forgot this tour and decided that he wanted his house to look like a castle.

Hearst died in 1951, and Hearst Castle was given by his family to the people of California. It is now a museum.

Examples:

- 0 Hearst Castle was cheap to build.

0

A B C
□ □ □

The answer is B (Wrong) because the text says the castle cost 'more than \$30 million' to build.

- 00 Theresa wanted to spend more time at Hearst Castle.

00

A B C
■ □ □

The answer is A (Right) because the text says that Theresa 'spent all day looking around, but it wasn't enough'.

- 000 Hearst Castle is on a mountain near the sea.

000

A B C
□ □ ■

The answer is C (Doesn't say) because there is no information in the text which tells you exactly where the castle is.

- 21 Hearst's guests stayed in 'Casa Grande'.

Reading

- Read what Sam Hayden says about his big family. Which brother is he close to? Which words tell you this?
- Now read what Sam's brother Joe says. Who does he get on well with?

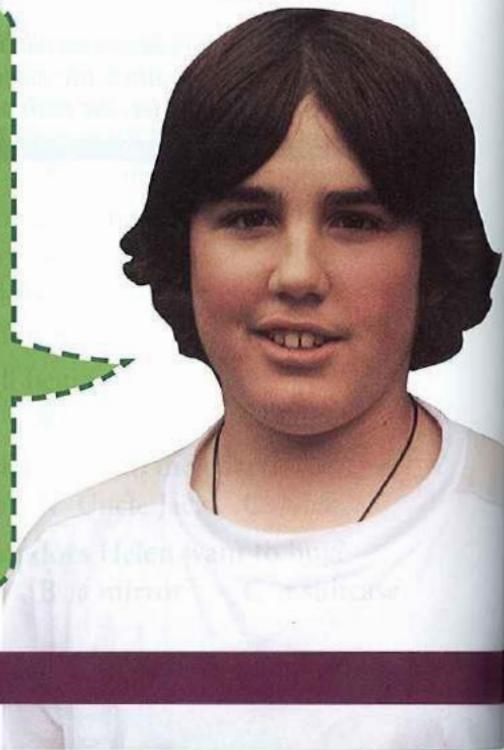

Hi, my name is Sam. I am nine and I live in a family of nine. I've got five brothers and their names are David aged sixteen, Michael aged fourteen, Joe aged twelve, Jacob aged seven and Isaac aged four. I've got a little sister Naomi aged two. My mother is called Pamela and my dad is called Bernie. I live in the county of Angus, which is in Scotland. I get on quite well with my brother Michael because he is kind and helps me. I don't get on so well with my brother Joe because he is a bit annoying. I like living in a big family and I wouldn't like to change anything.

Hello, my name is Joe Hayden and I am twelve years old. My eldest brother David is sixteen and Michael is fourteen. I have three younger brothers. My little sister, who is called Naomi, is only two.

David, Michael and I are all into music, something we always enjoy. David plays the drums and Michael plays guitar, both quite loud but no one really minds. I get on well with David but not so much with my younger brothers Jacob and Sam. David, Michael and I are lucky because we all get to escape! We go to a school that is far, far away and we are only at home during the holidays.

It's good being in a big family. You can play games like football and cricket with everyone. In smaller families, this is not possible. Also, a big family means a big house, so you can always find somewhere to be by yourself. I like that sometimes.

The bad things are that you always get little kids bugging you. They can be so noisy! Everything around you is very busy and really messy, and there's lots of washing up and laundry to do. It also costs much more to go anywhere. But I prefer being in a big family.

- 5 Read what Joe says again. Are sentences 1–7 below 'Right' (A) or 'Wrong' (B)? If Joe doesn't tell you the answer, choose 'Doesn't say' (C).

- 1 Michael is older than Joe. **A**
- 2 When David and Michael play music, the others think they are too noisy.
- 3 Joe's school is very famous.
- 4 Joe comes home from school most weekends.
- 5 The Hayden children play more football than cricket.
- 6 Joe enjoys spending a bit of time alone.
- 7 Joe does all the washing up when he is at home.

FAMOUS FOR

FIFTEEN

Jamie Oliver is Britain's most famous chef. He made his first TV cooking programmes when he was only 23, got married at 25 and was given a special award by the Queen at 28. A top supermarket pays to use him in their advertisements, he sells almost as many books as J.K. Rowling, and journalists are always writing articles about him.

Jamie has also opened the restaurant *Fifteen* in London. The name doesn't describe where the restaurant is – it's because he chose this number of young people to become cooks there. Not one of them knew how to cook so Jamie sent them to college in the year before he opened the restaurant. They also visited other restaurants to learn more.

Fifteen really started because of a conversation Jamie had with his wife's friend. She worked with difficult children and found that they always enjoyed cooking, so Jamie decided to start a restaurant business to help young people with problems.

Jamie is at the restaurant five days a week but always spends weekends with his wife and children. He says he has never been happier and only wants to go on cooking. He works hard but pays himself nothing, because all the money is used to train new students every six months. Today, 85 people work at *Fifteen*, many more than when it first opened. The restaurant is always full and Jamie has four receptionists answering more than 3000 phone calls a day from customers wanting to book a table!

- C** do just what he is doing now.

Some of the oldest people in the world are said to live in Azerbaijan. The most famous of all was Shirali Muslimov, who died on 2 September 1973 at the age of 168. Today, doctors do not think this is possible, but he was a very old man – probably nearer 120 than 160!

Another person who was once the oldest person in the world was Kamato Hongo. She was born in 1887, in Japan, and died in 2003 at the age of 116. Kamato usually slept for two full days at a time and then was awake for two full days. She said to live a

long life you mustn't 'think too much', and her

favourite things were sugar, steak and green tea.

Joan Riudavets Moll was born on 15 December 1889, on the Balearic Island of Menorca. He still lives there, spending up to 14 hours a day asleep. Riudavets really wanted to be a doctor but he became a shoemaker, working at home in the family business. He has three daughters in all, with five grandsons and six great-grandchildren. He rarely leaves his home. He thinks planes and electricity are the most important changes he has seen in his life. During his life he has played a lot of football – his favourite game – and still enjoys singing and playing the guitar. What does Joan Riudavets Moll say about living a long life? 'If you eat a little but often, you will live a long life.'

Part 4

Questions 21–27

Read the article about a famous Australian man, called John Flynn.

For questions 21–27, mark A, B or C on your answer sheet.

The Flying Doctor

John Flynn was born in Australia in 1880. His father was a schoolteacher. John studied hard and in 1911 he left the city of Melbourne and went to work in South Australia for the Presbyterian Church. The church wanted to help the sheep farmers who lived in the outback – the countryside area many kilometres from towns and cities. They built a number of small hospitals and found nurses to work in them. But at that time there were only two doctors in all of South Australia.

One story Flynn often told was of Jimmy Darcy. One day Jimmy had an accident on his farm so friends took him to see F.W. Tuckett, who worked at the post office at Halls Creek. It was a journey of 22 km. Tuckett was the only person in the area who knew anything about medicine. He tried to

help but Jimmy was too ill. Tuckett finally talked by radio to a doctor in Perth, a city 1500 km away. The doctor took ten days to arrive. He travelled by car, by horse and on foot and when he arrived, he found that Jimmy was already dead.

Flynn saw that planes could really help people in the outback. He wrote about his idea for a 'Flying Doctor' in 1917 but it wasn't until 1928 that one actually took off. By the 1930s there was a Flying Doctor plane in every part of Australia.

Example:

- 0 John Flynn's job was
A teaching at a school.
B helping with sheep farming.
C working for the church.

Answer: **0** A B C

- 21 Flynn worked in
A a city.
B the countryside.
C a small town.
- 22 What was the problem in South Australia?
A The nurses weren't very good.
B There were no hospitals.
C There weren't enough doctors.
- 23 What does Flynn tell us about Jimmy?
A He lived at Halls Creek.
B He was a farmer.
C He was often ill.
- 24 Why did Jimmy and his friends go to see F.W. Tuckett?
A He helped sick people.
B He worked at a post office.
C He was a doctor.
- 25 What did F.W. Tuckett decide to do?
A to give Jimmy some medicine
B to go with Jimmy to the city
C to use a radio to get help for Jimmy
- 26 What do we know about the doctor from Perth?
A He travelled too slowly to save Jimmy.
B He had problems with his car.
C He didn't know the way to Halls Creek.
- 27 The first Flying Doctor plane flew in
A 1917.

- 7 Read the article about a David Beckham fan called Jenna. Then answer the questions by choosing A, B or C.

MAD ABOUT BECKS

IN 2003, 14-year-old Jenna spoke to a journalist of ours about moving to Spain.

'I've only been a Beckham fan for a couple of years but my dad always loved seeing him play at Manchester United. It took him ten hours to get there by car from Cornwall! Mum also follows Becks now. When she and I heard he was leaving to play in Spain, I said, 'Let's move to Spain!' Dad agreed to come but my older brother decided to stay in England. He's still living in our house there.'

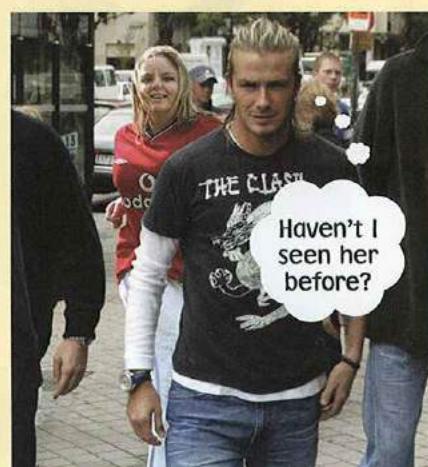

At first we didn't know if Becks would play for Barcelona or Madrid, so my parents bought a place in Alicante. It's only about three hours away from both cities. Our new home has three bedrooms and two bathrooms on one floor, and there's a flat with another two bedrooms and bathrooms under that. There's a pool, too.

My friends in England will come and visit for my birthday in February. They think I'm a bit mad but they're pleased for me too. I email them all the time. It's great to live in another country and learn a new language, but I'm finding Spanish quite difficult. I learned French in England and I keep

mixing the two. It'll be easier when I start at my new school.

Becks is playing really well in Spain, which keeps my dad happy! What I love most about him is that he's a big family man. Being famous hasn't changed him. I'm having a great time in Spain and I'd really like to meet Becks one day.'
